

# Gender & Sexuality Action Committee

AMSA believes that all patients deserve quality healthcare that is non-discriminatory, respectful, and sensitive with regard to their gender or sexuality. The Gender & Sexuality (G&S) Action Committee seeks to establish AMSA as a leader in issues that affect the health and healthcare of women and of lesbian, gay, bisexual, transgender (LGBT), intersex, and queer persons. Towards this goal, we are excited to support the women's and LGBT health policy/programming efforts of AMSA on both local and national levels.

Please check out our webpage for resources or email us: we love hearing about the amazing work you do, and we want to help in any way that we can.

Show off your women's health or LGBT health pride with these pins at the AMSA store, [www.amsa.org/store](http://www.amsa.org/store).

## G&S Programming

G&S helps plan programming at AMSA meetings and provides resources for our members including powerpoints, webinars, and toolkits. Send us your suggestions for a resource, speaker, or workshop.

## Health School LBTA group

The Health School LBTA (LGBT and allies) group is a listserv/forum/directory among LBTA student leaders at health schools across the country. Contact our LGBT Programming coordinator to get connected.

## Policy and advocacy alerts

AMSA fights for policies to improve women's/LGBT health and alerts members about opportunities for advocacy. Get in touch with our policy coordinators to find out how you can help.

## Women's and LGBT health white coat cards

G&S will be developing our white coat cards on women's health and LGBT health. We hope to create a smartphone/tablet version as well. Ask our programming coordinators how to get involved.

## Sexual Health Scholars Program

The Sexual Health Scholars Program is an online course that trains medical students in sexual health topics. Applications due in September, program starts in October. Visit [www.amsa.org/shsp](http://www.amsa.org/shsp).

## G&S on the web

Find out more about G&S at [www.amsa.org/gender](http://www.amsa.org/gender).
