REPORT OF REFERENCE COMMITTEE B

DISCUSSION

BOT: Adopt as written.

BRD: Discusses to remove line 29 [a “direct result of the person having been a victim of trafficking.”] because it is stipulated in another section of the PPP.

PRD: Adopt as written

IRD: Adopt as written.

ACTE: Suggests to remove the word “federal”. Supports that criminal convictions are not only defined as federal but also at the state or local level.

International Caucus: None.

Premedical Caucus: None.

Resident Caucus: None.

Other Groups: None.

Other Discussion: None.

SYNTHESIS OF DISCUSSION

BRD stipulates that line 29 is repetitive and recommends to remove such line. ACTE states that criminal convictions is not only subjected at the federal level but at the state and local levels too. Therefore, ACTE recommends to remove the word “federal”.

REFERENCE COMMITTEE COMMENTS

Support ACTE recommendations to remove the word federal because criminal conviction is not only limited to the federal level, but to state and local levels. We fail to support the BRDs recommendation to remove line 29 as the representative was unable to provide proper evidence of repetitive phrase.

REFERENCE COMMITTEE RECOMMENDATION

Adopt as amended.

2. In regard to legislation:

d. **ENCOURAGES** legislation in which victims of human trafficking can request the court vacate their ~~federal~~ criminal convictions and expunge their arrests for non-violent crimes committed as

a “direct result of the person having been a victim of trafficking.”
