

THE CHALLENGE

Students of medicine face the most daunting **challenges** in education today:

- Continual growth in the breadth and depth of clinical knowledge
- Changing health care landscape
- Rapid evolution of technology
- Decreased empathy by third year
- Increased drug use and other self-destructive behaviors
- Isolation and minimal support systems
- Mounting debt

AMSA National offers medical schools **strategic partnerships** designed to address challenges faced by students.

Let's solve the challenges facing our next generation of physicians.

National membership extends beyond the campus chapter level.

Schools who partner with AMSA give students an edge in developing skills and knowledge to enhance their core medical education.

THE RESPONSE

AMSA Institutional Partnership Provides Students and Schools With:

LEADERSHIP OPPORTUNITIES

- Longitudinal, online Scholars Programs are directed by medical students
- National executive board positions are held by medical students
- One-year education and advocacy focused fellowship
- Clinical skill building and simulation training at national events are facilitated by students
- Opportunities for publication, presentation and professional acknowledgement

PERSONAL RESOURCES

- Scientifically validated self-awareness assessment tool customized to medical students
- Resiliency and empathy training and tools
- Access to Match preparation programs
- Professional and peer mentor networks
- Confidential counseling

SCHOOL BENEFITS

- Listing on AMSA's website and app school directory
- Featured school of the month on AMSA's premedical student member webpage and in promotions to premeds
- 20% discount on all advertising in AMSA's member communications
- Co-branded, customized onboarding membership package
- Exhibit display table at AMSA's Pre-Health Recruitment Fair and recognition at AMSA's Annual Convention
- Customized sign for school to display at recruitment events
- Unlimited registration for faculty/administration to attend all AMSA national events
- Invitation to attend the faculty/administration breakfast and workshops at the AMSA convention
- Library subscription to AMSA's member magazine, *The New Physician*

INSTITUTIONAL PARTNERSHIP PROGRAM

Schools investing in their students send a powerful message to current and prospective medical students.

AMSA Institutional Partnership pricing is offered at a flat rate on a graduated scale based on incoming class size. As an AMSA Institutional Partner, all of your incoming medical students receive AMSA membership with full membership benefits for the duration of their medical school careers.

To receive the discount pricing, your school agrees to become an AMSA Institutional Partner for at least 3 consecutive years and provides AMSA with an incoming class list each year for AMSA to onboard each student as a member. Students may opt out of membership at any time.

For more information and to receive discounted AMSA National membership for your entire incoming class, contact:
