AMSA Reproductive Health Scholars Program Syllabus
September 2020 - February 2021

Course Overview
AMSA strives to empower physicians-in-training to effect change through education and advocacy. AMSA Scholars Programs are designed to provide medical and premed students with information not covered in traditional medical school curriculum and to foster an online learning community of future physicians.

The AMSA Reproductive Health Scholars Program addresses the “hidden curriculum” in medical school and prepare students to think critically about abortion-related and education and training opportunities.

Goals and Objectives
Students should leave this program demonstrating an understanding of:
- History of Abortion
- Basics of clinical first trimester abortion
- Basics of clinical second trimester abortion
- How to provide options counseling
- Know thyself: values clarification in abortion care
- Reproductive justice and advocacy
- Diversity & equity issues in abortion access
- Rising maternal mortality in the U.S.
- State and federal laws - their impact on access to reproductive healthcare
- Accessing abortion training when it’s not offered at your medical school
- Cultural competency and sensitivity within reproductive healthcare

Student should further develop the following skills:
- Gain confidence with speaking and networking in a group
- Be able to discuss the political and historic background of abortion care, in conjunction with clinical terms and definitions
- Advocacy efforts developed through the completion of a final project

Additional readings: Additional readings will be suggested prior to the time of lecture that will enhance your lecture experience and understanding. Some sessions may not have pre-reading.
**Course Requirements**

The course is graded Pass/Fail based on the elements outlined below:

**Attendance** - 8/10 sessions (student must mark attended live or watched recording on the session attendance sheet in the Google Classroom)

**Participation** - 7/10 sessions (during live sessions via Chat or voice, or via Class Comments for session in Google Classroom)

**Expectations**

As you enter the Zoom room:
- Mute yourself upon entry
- Please put your phone on vibrate/off
- Prior to the start of the webinar, you are expected to read the corresponding material provided on Google Classroom. During the webinars, it is expected that you will attend like you would lectures at school. Please participate in the discussions, ask questions, and talk with your fellow scholars.
- Check the Google Classroom regularly for assignments and updates.
- You will be required to complete a final project. You will get to choose your topic and have the opportunity to present at AMSA Convention 2021 Poster Session. Some scholars in the past years have even published their work. Most importantly, you will get as much out of this course as you put into the course.

**Inclusivity Statement**

We understand that our members represent a rich variety of backgrounds and perspectives. AMSA is committed to providing an atmosphere for learning that respects diversity. While working together to build this community we ask all members to:

- share their unique experiences, values and beliefs
- be open to the views of others
- honor the uniqueness of their colleagues
- appreciate the opportunity that we have to learn from each other in this community
- value each other's opinions and communicate in a respectful manner
- keep confidential discussions that the community has of a personal (or professional) nature
- use this opportunity together to discuss ways in which we can create an inclusive environment in this course and within the AMSA community

**Final Project**

Completion of a final project utilizing the knowledge gained from the course to educate & empower others in your school or community.

Project ideas include development of fact sheets, tool-kits, letters-to-the editor, etc. Projects can be individually or in groups.

**See additional details & resource links below.**
AMSA Reproductive Health Scholars Program
September 16, 2020 - February 24, 2021

  ● Ashley S. Weitz is a victim advocate and trauma-informed care educator, lecturer, and consultant in Salt Lake City, Utah

10 - February 24, 2021
Birth Settings in America: Outcomes, Quality, Access, and Choice
  ● Melissa Cheyney, Associate Professor Department of Anthropology, Oregon State University

Final Projects Overview & Resources
Completion of a final project utilizing the knowledge gained from the course to educate and empower others in your school or community is a requirement of this course.

Project Timeline
  ● Project Proposal/Thesis Statement limited to 1 page in length, and should be submitted for feedback from your Course Directors by November 15. Group projects done by 3-4 people will be considered.
  ● Final Project Outlines should be submitted by - December 20.
  ● Final Projects completion date, on or before - February 24, 2021. Certificates of completion for the program will be emailed AFTER FINAL PROJECTS are submitted. Students from AMSA Scholars Programs are strongly encouraged to submit abstracts of their projects to the annual AMSA Convention Poster Sessions, see info below.

Projects ideas, project proposals, and final projects should be submitted via your google classroom - see Classwork section and Final Projects tab.

Project ideas include: development of fact sheets, tool-kits, letters-to-the editor, op-ed samples, research projects, and medical poster conventions. See samples and tools below. NOTE: All group project participants MUST each upload the same project idea description and it MUST include the names and emails of each person in this Scholars Program who is participating in the group project.
Research Project Tips from AMSA 2020 Convention Reproductive Health Poster Awardees - Meg Starcher, MPH, MS3 & Makenzy Sufficool, MS3

Taking Action: Getting Abortion Training at Your Medical School

AMSA Convention Poster Session
Abstracts should be no longer than 350 – 400 words and follow a standard format:
1. Background/Vision
2. Methods/Process/Action
3. Results/Impact
4. Conclusions/Connections/Meanings

Watch our Poster Session Tutorial with Dr. Matthew Stull
The AMSA 2021 Convention will be held in February 2021, details including poster submission information will be posted later this year.
