The Board of Trustees reserves the right to review and demand correction of any gross violation of either AMSA policy. In worst case scenarios the Board of Trustees (by at least two-thirds vote) reserves the right to revoke the charter of any chapter that either refuses to rectify a situation after the chapter is notified by the national office or one that has done such damage through the misuse of authority and/or of AMSA's name that the Board of Trustees deems it prudent to discontinue association with the chapter. Section 2—Revocation of a Charter by an Individual

1. Any individual may file written charges against any chapter that the accuser feels to have acted in conflict with the letter or intent of the Constitution and Bylaws of the Association, or to have failed to comply with all requirements of the Constitution and Bylaws of the Association, or with any lawful requirement of the House of Delegates. Such charges shall be signed, dated, and filed with the Vice-President of Membership, who shall submit a copy of said charges to the accused chapter and request of the chapter a written reply. He/she shall so present said charges and the reply to the Board of Trustees at its next meeting.
2. If the Board of Trustees fails to dismiss said charges, it shall fix a time and place for the hearing of the charges. If, following the hearing, the Board of Trustees fails to dismiss the charges, it shall advise the accused chapter of its recommendations, and shall make known its decision in a written resolution signed by the President of the Association at least thirty (30) days prior to the next House of Delegates.
3. At the next House of Delegates, the resolution shall be presented and voted upon. Before the voting shall commence, the chapter shall be allowed ten (10) minutes to answer charges. Upon suspension or revocation of the charter by a three-fourths vote of the House of Delegates, the delegation of that chapter shall leave the floor of the House of Delegates.

Section 3—Alteration of Individual Membership

The counting of ballots simulates a series of runoff elections. All first choices are counted, and if no candidate wins a majority of first choices, then the last place candidate is eliminated. Ballots of voters who ranked the eliminated candidate first are redistributed to their next choice candidates, as indicated on each voter's ballot. Last place candidates are successively eliminated and ballots are redistributed to next choices until one candidate remains or a candidate gains a majority of votes. In case of a tie the candidates receiving the two (2) highest number of votes in the first ballot shall be included in the second balloting. Additional balloting for said office shall continue until one (1) candidate shall receive a majority of votes cast on a re-ballot and he/she shall be elected to said office.

No candidates for these positions shall be permitted to run from the floor.
3. Challenges to offered credentials shall be received by the Nominations Committee and reviewed before 5:00 PM on the day preceding elections with the candidate, prior to which he/she may revise an offered curriculum vitae or statement of candidacy. Section XVII. Advertising Policy Formulation

The following guidelines are to be used by the Association in formulating advertising policy:

1. There should be no statements, verbal or pictorial, that are misleading.
2. Patients and providers should be portrayed in a respectful and humane manner and not in a stereotyped or demeaning fashion with respect to age, sex, sexual orientation, gender identity, race or disability.
3. Statements of properties, performance, content values, beneficial results, etc. of products should be such that they can be verified by adequate data in the literature.
4. AMSA bans all campaign advertisements for political candidates and/or political parties.
5. Support documentation verifying claims must be submitted to publisher upon request before an advertisement will be accepted for publication.
6. Nutritional advertisements should not conflict with the U.S. Dietary Guidelines.
7. Advertisements for special purpose foods must include a list of ingredients and the quantitative nutrition analysis of the product or offer to supply this information on request. If the advertiser elects to state the nutrition value in terms of RDA's, as well as the quantitative nutrition analysis, current federal regulations governing nutrition labeling should be followed or this information offered on request.
8. Advertisements for products and services should seek not to be in conflict with the Association's strategic priorities and principles as described in the Preamble, Purposes and Principles.
9. Final judgment regarding the appropriateness and acceptability of advertisements not addressed by the above guidelines and the implementation of the above guidelines will be the responsibility of the BOT.
10. AMSA requests that all parties with direct funding from pharmaceutical, medical device and biotechnology companies report the existence of those relationships to AMSA. This information will be made available to AMSA members upon request. A report of this disclosure must be submitted to AMSA upon confirmation of participation and/or attendance (i.e. AMSA meetings, advertising).
11. AMSA does not endorse the products and services of organizations that advertise or participate in AMSA publications, meetings, conferences, exhibition halls, convention, etc.

Section XVIII. Governance of Industry Relationships

The following guidelines are to be used by the Association for industry relationships:

1. Regarding direct pharmaceutical, health insurance and medical device industry relationships, AMSA will:
 - a. Not accept funding for general budget support—which includes grants and funds for programs and research.
 - b. Not accept income from journal advertising, exhibit hall fees, or any other form of sponsorship.
 - c. Ban all direct advertisements and sponsorships in its publications and at its events from all related companies—except for educational medical devices (as defined in section 24 subsection 4) commonly used in medical school training—as well as those who manufacture/promote/market/develop products purported to have a direct health benefit (e.g. vitamins, supplements, food derivatives).
 - d. Prohibit samples of medical supplies except in circumstances that protect the integrity of education (e.g. sutures, IUDs, etc.) and prevent the use of samples as a marketing tool.

- e. Allow contributions of unrestricted medical device samples at the chapter level for educational programs that are independent of any industry input or control and unaccompanied by marketing materials.
2. Regarding non-profit organizations or foundations affiliated with the pharmaceutical, health insurance, or medical device industry, AMSA will:
 - a. Accept general budget support if the following conditions are met:
 - i. Establishing a relationship with the funder aligns with AMSA's priorities and mission.
 - ii. The funds and grants received will not stipulate modifications to AMSA's principles or influence AMSA's ability to advocate according to AMSA's priorities
 - iii. The funds and grants received are given for the purpose of supporting AMSA's mission
 - iv. The total funding received from such industries does not exceed 25% of AMSA's total operating budget
 - b. Accept journal advertising and exhibit hall fees when providing educational value or advancing AMSA priorities with the understanding that affiliations with the pharmaceutical and medical device industries will clearly be displayed for members.
 - c. Affirm that the autonomy of AMSA will be preserved to sustain the freedom to follow its own course, modify both its goals and priorities, and exercise the freedom to take positions on issues that may be unfavorable to its funder.
 - d. Consider non-monetary collaboration with these organizations to be acceptable if they advance AMSA's priorities.
3. Regarding organizations that may accept some funding from the pharmaceutical or medical device industry, AMSA will:
 - a. Accept funding and income by the nature of being at least one degree removed from the industry.
 - b. Accept journal advertising and exhibit hall fees in the absence of any other conflicts of interest.
 - c. Collaborate with these organizations in the absence of any other conflicts of interest.
4. Regarding educational medical device and related organization relationships, AMSA will:
 - a. Prioritize independent foundations, non-profit organizations, or relevant programs by governmental institutions (e.g. NIH) to provide education on medical devices but in their absence, relationships with companies supplying educational medical devices are acceptable if the devices:
 - i. Are commonly used in medical school training.
 - ii. Are produced by at least two or more manufacturers.
 - iii. Are not *de novo*.
 - b. Partner with educational medical device companies and non-profit organizations or foundations affiliated with educational medical device companies, if:
 - i. Funding for general budget support, except for journal advertising revenue and exhibit hall fees, will not cumulatively exceed 25% of AMSA's total operating budget.
 - ii. Income from journal advertising or exhibit hall fees is absent any other conflicts of interest.
 - iii. All grants align with AMSA's priorities and all other funds are truly unrestricted such that AMSA maintains its independence in use of the funds and given for the purpose of supporting the mission of AMSA.
 - iv. The autonomy of AMSA will be preserved to sustain the freedom to follow its own course, modify both its goals and priorities, and exercise the freedom to take positions on issues that may be unfavorable to its funder.

Section XIX. AMSA-Sponsored Activities

- A. Environmental Health: To promote the highest quality of health for those attending AMSA events, AMSA-sponsored regional or national meetings and programs will adhere to the following guidelines:
 1. Use of any tobacco product is not allowed during any AMSA-sponsored regional or national meetings or local programs, within an environment under the temporary or permanent control of local or National AMSA. AMSA encourages local, regional and national event organizers to promote a smoke-free environment within areas not under AMSA control.
 2. Weapons of any kind are not permitted at AMSA events unless special permission has been given in advance by the Board of Trustees for a compelling reason or the individual is on duty as a law

enforcement officer or active-duty military personnel. Those possessing or carrying weapons without permission will not be permitted to attend future AMSA events or participate in AMSA leadership.

3. If noxious or harmful exposures are noted at an AMSA event, event organizers are accountable for informing attendees and mitigating harm.
4. AMSA will specifically request recycling and other energy conservation services when booking any commercial meeting sites and contractors.
5. Recycling and energy conservation measures are required, when feasible, in all national AMSA properties and rentals.
6. All AMSA leaders and staff should minimize the amount of paper and copying for all activities, meetings and programming. Alternatives such as digital documents, online forms, shared programs, and recyclable materials are strongly encouraged.

B. LGBT Inclusion: To ensure that all AMSA events are accessible to LGBT members, AMSA-sponsored national meetings will adhere to the following guidelines:

1. All paperwork and application material should include gender options beyond the male/female binary by either having a fill in space or including male, female, transgender male and transgender female, GQ (gender queer), intersex, and “prefer not to say” as options.
2. Because legal names and preferred names are not always synonymous, space should be included on all forms for preferred names.
3. Gender neutral bathrooms will be available such as through ensuring that the space has single stall bathrooms or reassigning gendered bathrooms available in the event space.
4. Options for non-gender based room assignments will be available at national meetings. Local and regional AMSA events are strongly encouraged to follow the same guidelines.

Section XX. Strategic Planning and Strategic Priorities

The President shall oversee a process of strategic planning for the Association every four years for external priorities and every two years for internal priorities or sooner, if deemed necessary by the Board of Trustees and Executive Board of the Action Committees. During this time, the leadership shall designate strategic priorities of the Association. These priorities shall serve as issues around which AMSA shall focus its time, resources, and energies. The Board of Trustees may supersede these regulations if deemed necessary. Updates on each Strategic Priority shall be presented and reviewed at all meetings of the Board of Trustees and Executive Board of the Action Committees.
